EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Immediately after the title, the following sentence has been inserted:

This application is a 371 of PCT/JP03/11468 filed 9/9/2003.

Allowable Subject Matter

Claims 1-3 are allowed. The following is an examiner's statement of reasons for allowance:

The closest prior art appears to be US 3,640,855 (column 1, line 40) or US 3,796,756 (column 1, line 65), which teach compounds structurally related to that of the instant invention. The cited prior art neither teaches nor suggests the instant compound, however. Nor would it have been obvious to one of ordinary skill in the art at the time of invention to modify the compounds of the prior art in order to arrive at that of the instant invention. There is no motivation to do so.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
